

Paid Lists

Access the Right Data to Reach the Right Sellers

Introduction to Paid Lists

This lesson introduces paid lists as one of the most targeted and effective tools for generating motivated seller leads. These lists help you stop guessing and start marketing to property owners who are more likely to say “yes.”

You’ll learn what types of lists are available, where to get them, how to organize and contact the sellers, and how to track your results over time. This is smart marketing—focused, data-driven, and proven.

What to Expect and How It Works

This lesson covers:

- What paid lists are and why they work
 - The types of sellers you can target
 - Where to get lists (and how to pull them yourself)
 - How to use software like Deal Driven for outreach
 - Best practices for staying organized and getting results
 - A challenge to pull your first list and take action
-

Why Paid Lists Work

- Focuses your efforts on motivated sellers—not random leads
- Saves time, money, and energy
- Lets you target by equity, location, property status, and more
- You’re working with data—not just assumptions

 Example: Instead of marketing to all of Houston, you pull a list of 75 absentee owners with high equity. That list is more likely to convert.

What Kind of Lists Can You Request?

- Vacant properties
- Absentee owners
- Preforeclosures
- High-equity and free-and-clear homes
- Expired listings
- Out-of-state or senior owners
- Non-owner occupied rentals

📌 You can mix and match filters to match your strategy.

📌 Where to Get Paid Lists

- Deal Driven
 - PropStream
 - BatchLeads
 - Title companies or list brokers
 - REI VAs (virtual assistants who specialize in data pulling)
-

📌 Using Deal Driven for Paid Lists

- Filter by equity, owner status, and location
- Skip trace inside the platform using credits
- Get phone numbers and emails for outreach
- Text, call, and track responses—all within Deal Driven

📌 Deal Driven makes the process fast, simple, and repeatable.

📌 Hiring Help for List Outreach

- Search “REI Virtual Assistants” groups on Facebook
 - Ask for help with skip tracing, texting, and follow-up
 - Request quotes via DM or email
 - Use Payoneer or another secure payment platform
 - Always test with a small list before scaling
-

📌 Best Practices for Paid Lists

- ✓ Only market to sellers who match your buy box
- ✓ Track all outreach and responses in a Google Sheet or CRM

- ✓ Start small—test a list of 50–100, track performance, then scale
 - ✓ Always follow up with warm leads—this is where deals happen
-

How to Track Results

- Log how many leads you contacted
- Count replies, offers requested, and appointments set
- Note which lists performed best
- Use Deal Driven's tracking or a simple spreadsheet

 Tracking tells you what's working—and what to repeat.

Key Takeaways

- Paid lists let you target sellers with real potential
 - You can buy, pull, or outsource lists depending on your budget
 - Outreach becomes more focused and results become more predictable
 - Tools like Deal Driven make the whole process easier
 - Start small, track everything, and grow from what works
-

Student Challenge – Your First Paid List

Try this step-by-step challenge:

- Use Deal Driven or another tool to pull 50–100 leads
- Choose a simple filter like absentee or non-owner occupied
- Skip trace 10–25 and send a text or make a call
- Track responses and follow up
- Optional: Hire a VA for outreach support

 You're one list away from your next lead. Take the first step and build the habit.
